

Triple Strength Omega-3 Fish Oil with EPA & DHA

GMO & GLUTEN FREE

Fish Oil Without Fish Taste
Molecularly Distilled

Size: 60 Softgels | **Serving Size:** 2 Softgels | **Servings Per Container:** 30

Triple Strength Omega-3 Fish Oil is our molecularly distilled/ultra-pure, highly concentrated blend of omega-3 fatty acids uniquely delivered with absolutely no fishy aftertaste. Our omega-3 fatty acids exist in their most active and natural form. **Triple Strength Omega-3 Fish Oil** delivers 2,000 mg of fish oil per serving with 1,500 mg total omega-3 fatty acids. Delivers a high potency blend of 650 mg eicosapentaenoic acid (EPA) and 650 mg docosahexaenoic acid (DHA) in an ideal 1:1 balance. Both EPA and DHA are purified by molecular distillation for ultimate purity and quality. Both EPA and DHA are absolutely essential for our good health, yet they cannot be made by the body, so their benefits are only available from cold-water fish or a formula like **Triple Strength Omega-3 Fish Oil**.

Triple Strength Omega-3 Fish Oil is sourced from small species wild caught sustainable fish. The process of purification from the raw fish oil to the omega-3 fatty acids EPA and DHA is through molecular distillation. The fish oil is evaporated under high vacuum and the condensate is caught on a cooled surface (no heat is ever used in this process). Molecular distillation is a pharmaceutical grade process and produces a highly pure product without dioxins, PCB's, microbiological pathogens, mercury and other heavy metals.

There are now over 22,800 published studies on the health benefits of omega-3 fatty acids. The average American diet takes in too much saturated omega-6 animal fats and not enough omega-3 fat leading to an unhealthy omega-6 to omega-3 ratio. Fish oil supplementation is of great medical and public health interest with a tremendous amount of basic, clinical and epidemiological scientific evidence of health benefits. Research has shown that diets rich in omega-3 fatty acids are associated with superior heart, brain, eye, immune, genetic and overall general health benefits.[†]

Triple Strength Omega-3 Fish Oil allows you to enjoy all the benefits of fish oil with no contaminants, no mercury, no stomach upset and no fishy aftertaste.

Keep away from heat and light.

Keep out of the reach of children.

key features:

- **Delivers 2,000 mg of Fish Oil Per Serving With 1,500 mg Total Omega-3 Fatty Acids.**
- **Delivers a High Potency Blend of 650 mg Eicosapentaenoic acid (EPA) and 650 mg Docosahexaenoic acid (DHA) in an Ideal 1:1 Balance.**
- **Molecularly Distilled for the Finest Purity.**
- **Pharmaceutical Grade EPA and DHA Without the Worry of Mercury, Contaminants, or Fishy Taste.**
- **From Sustainable Sources.**
- **Gluten-Free Product.**

key messages:

- *Our omega-3 fatty acids exist in their most active and natural form.*
- *Both EPA and DHA are absolutely essential for our good health, yet they cannot be made by the body, so their benefits are only available from cold-water fish or a formula like **Triple Strength Omega-3 Fish Oil**.*
- ***Triple Strength Omega-3 Fish Oil** is sourced from small species wild caught sustainable fish.*
- *The process of purification is through molecular distillation. Molecular distillation is a pharmaceutical grade process and produces a highly pure product without contaminants, dioxins, PCB's, microbials, mercury and other heavy metals.*
- *There are now over 22,800 published studies on the health benefits of omega-3 fatty acids.*
- *Fish oil supplementation is of great medical and public health interest with a tremendous amount of basic, clinical and epidemiological scientific evidence of health benefits.*
- *Research has shown that diets rich in omega-3 fatty acids are associated with superior heart, brain, eye, immune, genetic and overall general health benefits.[†]*

** Daily Value (DV) not established

Suggested Use: Use as a dietary supplement, take one or two softgels one time daily, preferably with a meal, or as directed by a qualified healthcare practitioner.

Other Ingredients: Bovine Gelatin, Glycerin, Purified Water and Mixed Tocopherol.

Contains: Fish (Tuna and Anchovy)

Manufactured in a cGMP facility that processes milk, egg, fish, Crustacean shellfish, tree nuts, wheat and soy.

DO NOT USE IF SEAL IS BROKEN. KEEP OUT OF REACH OF CHILDREN. STORE IN A COOL, DRY PLACE.

WARNING: Pregnant or lactating women and people with known medical conditions and / or taking drugs should consult with a qualified healthcare practitioner prior to taking dietary supplements.

target market:

Primary: Individuals over 18 years of age looking for the highest quality omega-3 fatty acid supplement to support overall health.

recommended stack:

- Men's or Women's Max Multi
- Max Power Greens
